OVERVIEW

The use of body-worn cameras is rapidly increasing, mainly used for prevention of conflict between police officers and citizens. Body camera technology allows for clarification of the actions of police officers which improves the safety of the policemen and citizens, while encouraging proper protocol as well.

Body-worn cameras enable police officers to search in a more objective, accountable and transparent manner, thereby improving the effectiveness of law enforcement.

BWC075 – OMG World Smallest Mini Police Body Worn Camera
